

CEI ELECTRICAL SERVICES LIMITED

ENVIRONMENTAL ACTION PLAN

MARCH 2026

Significant Environmental Impacts	Actions/Areas for Investigation	Comments/Proposed Actions	Review Date
Energy Consumption	Replace lights in office with energy efficient LED fittings	Installed December 2016	N/A
	FIT PIR lighting controls to ensure that light use is kept to a minimum	Installed October 2016	N/A
	Ensure all electrical equipment is switched off overnight	Done – When alarm is set it switches off power to the building	March 2027
	Explore the feasibility of switching to a “green” electricity provider	“Green” tariff selected from energy suppliers	March 2027
	Explore the possibility of installing solar photovoltaic panels to the roof of office to reduce energy usage and CO2 production	Full Solar PV system installed June 2017	N/A
	Install air source heat pump at our office to reduce carbon emissions in the provision of our heating and hot water	Installed June 2021	N/A
Transport	Increase MPG in our transport fleet	All drivers given instructions on how to drive more economically to ensure the maximum MPG. GPS used to ascertain the quickest way to site.	March 2027
	Introduce the use of electric vehicles	4 electric vehicles currently in use, aim to replace all vehicles to electric by June 2027	March 2027
Waste	Dispose of all redundant electrical including light fittings under the terms of WEEE regulations	System in place with electrical wholesaler to collect all our electrical waste for disposal under WEEE regulations	March 2027
	Explore the options for recycling office paper	Paper recycling introduced using bin provided by Eastleigh Borough Council	March 2027

	Recycle all printer cartridges	Used printer cartridges collected each month by specialist recycling charity. https://www.recycle4charity.co.uk/	March 2027
	Wherever possible ensure all redundant office equipment is sold, donated for re-use or recycled	All redundant office equipment including computers is collected by Restore Technology https://www.restore.co.uk	March 2027
	Recycle all waste base metal	All metal is recycled at EMR https://uk.emrgroup.com/	March 2027
Use of Paper	Introduce policy to reduce printing, & print double-sided including sending emails rather than sending letters and avoiding printing out emails	Policy introduced July 2022	March 2027
	Purchase recycled bathroom tissue	Policy introduced July 2022	March 2027
New Installations	Encourage customers to use renewable/energy saving products	We have set up an Renewables Department. We provide advice to customers on reducing their carbon and to reduce their energy usage through the use of new products including solar renewable energy, air source heat pumps LED light fittings, PIR devices and voltage optimisation units	March 2027
